

## ÁRVÁLTOZÁS

2026. március 1.-től az Aura Soma Products Limited, az Aura-Soma termékek kizárólagos előállítója és forgalmazója 5 %-os áremelést jelentett be.

„We know that many in our community are also feeling the pressure right now and this decision was not made lightly. In the last year we have made difficult decisions around the costs of our small team who blend, pour, pack, and care for each piece by hand. These are areas we cannot now reduce any further. The reality is that many of our core costs have risen; glass, essential oils, crystals, and other raw materials have all increased significantly. Our commitment to you has always been to create meaningful, beautiful, and energetically sound products - not to simplify in ways that could undermine their integrity.

Our intention is not to exclude, but to ensure we can continue to exist, to support our team fairly, and to offer products that serve and inspire those who seek them. From March 1st, prices will increase by 5% - a rise as modest as we can realistically manage that reflects these realities. We've worked hard to keep the adjustment as measured as possible, balancing sustainability with accessibility.. „

Az import árakban megjelenő árváltozást kénytelenek vagyunk a Szín-Hely áraiban is érvényesíteni. Ennek megfelelően 2026. április elsejétől a SZIN-HELY árak is hasonló mértékben emelkedni fognak.
